## SIX-MONTHLY INDEXES TO SCIENCE ABSTRACTS

Cumulative indexes to Science Abstracts are published twice a year covering the period January-June and July-December. They comprise author and subject indexes and some specialised or 'small' indexes. For Physics Abstracts and Electrical & Electronic Abstracts the Author Index and Subject Index are published as separate volumes. In this case the Small Indexes are included in the Author Index volume.

Cumulative Author and Subject indexes for preceding years are also available. For details please see the inside back cover.

### Author index

This lists in alphabetical order all authors of papers abstracted in the abstracts journal during the six months covered by the index, together with the title of the paper. Where there are co-authors of a paper the title of the paper is given only under the name of the first author. The serial number of the paper in the abstracts journal is in the form 1-12345, i.e. 1981—abstract no. 12345.

### 'Small' indexes

These are specialised indexes which allow the user to find quickly particular types of information which might be difficult to find using the subject or author indexes.

#### Bibliography index

In this index reference is made to articles which contain a significant list of references or bibliography on the subjects listed.

#### Book index

This gives details of books received and abstracted by the abstracts journal.

#### Conference index

This index lists conferences for which published proceedings have been received and abstracted. Reference is given to the individual papers and their serial numbers in the abstracts journal.

#### Corporate author index

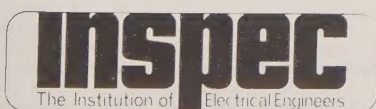

This is an index to those items where a corporate organisation rather than an individual person is the agent primarily responsible for the publication. Such publications typically include reports of industrial firms or of government departments or research establishments. This index replaces the previous Report and Patent assignee indexes.

**July-December 1981**

## Author Index

Electrical and Electronics Abstracts is published monthly by the Institution of Electrical Engineers. Twice-yearly subject and author indexes covering the period January-June and July-December are included in the subscription. Postmaster: Send address changes to INSPEC/IEEE Service Center, 445 Hoes Lane, Piscataway, NJ 08854. Second Class postage paid at Piscataway, NJ 08854, USA. Printed by Pindar Print Limited, Scarborough, N. Yorkshire, England.
